### 一、閱讀以下有關媽祖巨神像的簡介短文

The statue of the goddess Mazu was completed in October 2009. It was built with 365 big stones. It means that Goddess Mazu protects people for 365 days. It is 28.8 meters tall. It had been the world's tallest statue of Mazu.

In recent years, "Mazu in Matsu" has been the main promotional slogan for Matsu. The construction of the statue represents the devout faith of the people in Matsu. That's why the island is named Matsu.

There are twelve sculptures around the statue. They are the stories of how Mazu became to be deified. There is also a small tunnel directly beneath the statue. People call it the tunnel of praying for blessings.
